CONTINUOUS CUSTOMER SATISFACTION

ABOUT COMPANY

- ▶ Churning out consistent qualities, continuous technological innovations, resulting in cost effectiveness, to the client, **COREMET INDUSTRIES**, today takes pride, in being a complete solution provider to the needs of the Filtration requirements of Process Industries, be it in air or liquid filtration with ever growing list of esteemed customers.
- ▶ We also provide the high quality temperature sensors. Our exhaustive range of products provide solutions to conventional temperature sensors to high-tech industrial thermocouples for a variety of industries like Food, Steel, Glass, Power, Cement, Chemicals, Plastic and many other OEM's.
- ▶ We are manufacturing End Protectors like Flange Guard, Flange End Protector, Pipe End Protector. We are providing UV resistance HDPE and PTFE (Teflon) Flange Guard.
- ▶ The philosophy of the working of the company founded with strong work ethics, loyal customers, and steadfast ambitions, to provide a complete and total solution to the needs of the industry, with timely deliveries.
- ▶ Over the period, with more experience, additional products, have been added in the portfolio, and there is an ever going thirst to continue to work towards expanding our horizon to bring the best products to our valued customers.

QUALITY ASSURANCE

- ▶ Being a quality centric company, we endeavor to deliver our clients with excellent quality. Our products have tested at every stage of production to ensure consistent quality throughout. Moreover, we also conduct appropriate tests at our end as well. These tests are being conducted by using excellent testing facilities and sophisticated machines. We do this to achieve the following objective

To provide satisfactory products and services

To meet the industrial standards

To get repeat business from client

CLIENT SATISFACTION

► Over the years, we have built a wide base of clients by offering them with a quality range of products and services. We have a large list of satisfied customers, who give us repeat business.

FABRIC SELECTION CHART

Fabric	Chemicals/ Acid Resistance	Alkali Resistance	Tensile Strength	Abrasion Resistance	Max Continuous Operating temperature OC
Cotton	Good	Good	Good	Good	85°C
Polypropylene	Excellent	Excellent	Excellent	Excellent	95°C
Nylon	Poor	Excellent	Excellent	Excellent	110°C
Acrylic	Good	Fair	Average	Fair	120°C
Polyester	Fair	Fair	Excellent	Excellent	150°C
Nomex	Fair	Good	Very Good	Excellent	200°C
Teflon	Excellent	Excellent	Average	Fair	250°C
Fibre Glass	Good	Fair	Excellent	Fair	280°C
Ryton	Excellent	Very Good	Excellent	Very Good	190°C

PRODUCT LIST

FILTER APPLICATION

- Dust Collector Filter Bags
(Including High Temperature)
- High Temperature Fibre Glass Bags
- Woven Filter Bags for Wet Filtration
- Centrifugal Filter Bags
- Pleated Filter Bags
- Air Filters
- AHU Filters (PRE & HEPA Filters)
- Nylon Filters
- Liquid Filtration Assemblies
- Cartridges
- Filter Cages
- Air Slide Fabrics
- Environmental Monitoring Services
- Pocket Filter

END PROTECTOR

▶ FLANGE GUARD

- HDPE
- PTFE

▶ FLANGE END PROTECTOR

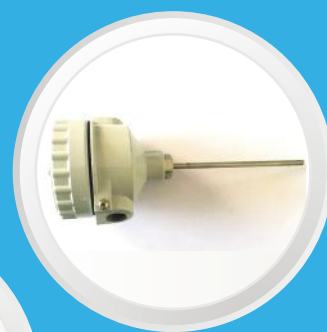

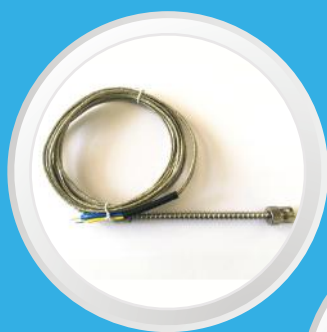

- Four Legged Flange
- Full Cover Flange

▶ PIPE END PROTECTOR

- OD Fitting Cap
- ID Fitting/Male Cap

SENSOR APPLICATION

▶ RTD (Pt-100,200,500,1000)

▶ Thermocouple (J,K,R,S,N)

▶ Thermowell

▶ RTD & Thermocouple Accessories
